Company description:

VidimSoft is a Belgian company specialised in immuno-haematology equipment for private and hospital laboratories as well as blood banking departments.

We develop semi-automated systems for blood group serology, meaning the digitalization and interpretation of blood group analyses done in cassette technique or manual (tube) technique within a thoroughly secured environment.

Actually we are present in about 35 countries represented by Ortho-Clinical Diagnostics and are directly operating in Benelux countries and France.

Our strength is to offer own-developed software and hardware for blood analysis in a secured environment, based on complete traceability and security between patient, sample and test. Service, quality, know-how and of course continuously being all ears to customers or distributors are key factors in our company.

Our main products are VidimScan, VidimCard, VidimServer, ...

Company description:

Since 1994 we have been marketing and selling subscriptions to Belgian and international newspapers & magazines on the academic market (students & teachers) with great satisfaction for both parties. For our campaigns to the general public, families, businesses & institutions we have created MediaLink.

Combining On- & Offline promotion & sales campaigns we create 30,000 subscriptions a year for +/- 200 national (Belgian) and International publications (Time, Le Monde, Newsweek, The Economist, Financial Times, Le Vif/L'Express, Le Soir, De Morgen, De Standaard, het Laatste Nieuws, International Herald Tribune, ...).
(Cfr www.4ucampus.eu or www.4ucampus.be/abo)

Due to the very effective promotion & sales campaigns for our publishers, we attracted a lot of nice projects (& references) from companies in the telcom, finances, travel & FMC-sectors and IT-companies.

We are Apple On Campus dealer, but also offering GSM, ADSL subscriptions (with Belgacom & Proximus) with exclusive reductions, incentives, ...

ALSIBOIS INTERNATIONAL EV

Zonnestraat 37
B - 9790 WORTEGEM
BELGIUM
T +32 475 77 36 00
F +32 56 68 13 91
www.alsibois.be
info@alsibois.be

Delegate:
Koen VANDERBAUWHEDE,
General Manager

Company description:

ALSIBOIS international is manufacturer of the wood filler "ALSIBOIS" which is an easy workable paste, based on powder of natural wood (2-component). ALSIBOIS has fabulous specifications as: fast drying, no shrinkage and can be worked and coloured as wood and exists in 11 colors. ALSIBOIS can be used for reparation of windows, doors, parquet, stairs, boats, MDF, chipboards, etc., indoors & outdoor.

A second product called the "DUSTKILLER" is a liquid, based on natural components (without silicones or COV's). When vaporised on the work floor, all dust (wood, PVC, concrete, glass, asbest, etc.) get electrostatic load and falls down to earth. The floor can be now swept and dust does not blow away anymore. The DUSTKILLER is used in workshops, garages, industries & stockrooms (dust is also dangerous for electronic parts of machines).

BELGIUM
T +32 3 680 17 50
www.vdbvr.be
info@vdbvr.be

Delegate:
Dirk DE RIJCKE,
Commercial & Marketing Manager

Company description:

VdB International is a Belgian company, founded in 1948 in the vicinity of Antwerp. We have now become a goldsmith atelier with more than 50 employees and we have five different brands in our portfolio. We are one of the most important players in the European market and we are active in several different countries in Europe.

VdB International specialises in the production and sales of rings. We know how to perfectly combine our craft with leading technology in our workshop. We work with different kinds of precious metals such as 9, 14 and 18 carat gold, silver, titanium and palladium. We only use conflict-free diamonds in our rings.

Our representatives and our in-house customer services guarantee optimal service. Our company also specialises in the "just in time" principle; all our rings are delivered just one week after the order is placed.

TRICOLAST NV

Delegate:
Bernard HOSTE,
Export and Business Development Manager

Company description:

Tricolast is a manufacturing company since 1948 that specialises in made to measure knitting and silicone coating. With our 2 brands – Caroskin and Scarban - we specialise in the treatment/prevention of heavily scar formations caused by heavy trauma, surgery, burn accident, ...

We have 2 product/concept lines that both have their unique approach.

The Scarban concept comprises an extensive range of re-usable silicone sheets and the unique Scarban velvet Touch that are used in the treatment/prevention of scar formations.

The Caroskin concept is a range of products that consists of made to measure products – products that require a different attention and that are mainly being used in burn care centres due to their unique combination available from one specialised partner. Our distributors/measure takers/orthopedic specialists order the following products for one individual patient at one address:

1. Caroskin professional silicone sheets
2. Caroskin made2Measure pressure garments
3. Caroskin made2measure silicone garments
4. Deep hydrating Caroskin Skin Lotion
5. Deep Cleaning Caroskin Cleaning Soap
6. Caroskin Glide Gel

Both concepts have a different approach and require a different preparation.

Scarban is being distributed with great success in 7 countries since 2004; Caroskin is a concept that is new and that we start promoting recently.

TELETASK
trendsetter in domotics

Delegate:
Johan VANDER BEKEN,
General Manager

Company description:

TELETASK is a Belgian manufacturer of high quality Home Automation Systems. The company was founded in 1984 and is specialised in products for Home Automation in luxury houses/cottages/apartments and professional projects.

References include several thousands of installations in exclusive houses worldwide and professional references like Hilton Hotels, SAS Hotels, Armani, Toyota, Aston Martin, Spa and Wellness resorts, governmental buildings, schools, public area's, restaurants, etc. Currently TELETASK is exporting to more than 20 countries worldwide and is constantly expanding and looking for new partnerships.

The TELETASK solutions perfectly integrate all electrical functions available: lighting, heating, air-conditioning, curtains, doors, gates, audio, video, camera's, door phone systems, PC, mobile phone, access control, security, default internet/Ethernet connected, etc.

On top of the propriety high-speed AUTOBUS communication protocol, TELETASK is 100% compliant to DoIP (Domotics over IP). Communicating over Ethernet LAN/WAN is more open than every local standard. More and more systems like air conditioning, mobile devices and building management backbone systems are easily integrated with TELETASK Home Automation Systems over IP, without the need of hardware interfaces. All built to enhance comfort and safety and to manage energy resources local or from remote site.

F +32 11 52 51 09
www.cemart.eu
info@cemart.be

Delegate:
Peter VAN den BRANDE,
General Manager

Company description:

Cemart is a company, specialised in patching mortar and self-levelling floor mortar. The company's specialisation is based on more than 20 years of experience, from floor manufacturing to floor patching techniques.

A solid floor is of extreme importance for the overall productivity and cost-effectiveness of industrial, utility and house-construction. Such a floor should comply with all the client's wishes, while at the same time being completely integrated in its environment. Placing such floors forms a real challenge. Technical skills and the application of the right materials will lead to a perfect result.

Cemart offers a wide range of self-levelling cementitious floor mortars for housing, commercial flooring, design flooring, industrial floors, grouts and repair mortars.

The cement-bound industrial floor system has been especially designed to level and renovate most types of floors in industrial and commercial buildings, for which high resistance is required.

Company description:

SICAME is a manufacturer of wood veneer furniture. We create and produce office furniture in wood veneer for dealers in Western Europe as well as Russia and Morocco. We are active since 1919 for four generations, and are a healthy 100% family owned business. Our ranges are regularly renewed and we offer traditional as well as modern design. In 2007 we realized a 8,000,000 euro turnover; in 2008 7,000,000.

We also produce bespoke meeting rooms and boarding rooms. Amongst our regular end users we find the French Parliament, The Belgian & Dutch Military, The Belgian Parliament, Fortis Bank, many well known private owned companies such as Fiat-Iveco (FR), Ferrero Rocher (LUX), Air France-KLM (FR). We also create and produce private label for companies such as Markant (BE); Office Depot (FR/UK); GDB (BE/FR/NL); Swan (NL).

We offer good quality at a reasonable price.

ROTOPI BVBA

Terlaemenlaan 8 bus 1
B - 3550 ZOLDER
BELGIUM
T +32 11 49 00 49
www.softli.be
info@softli.be

Delegate:
Rob GIELEN,
General Manager

Company description:

Softli is a software package that has been solely and specifically developed for the lingerie retail trade. It covers every aspect of your store, from order to sale, from inventory to accountancy data. In brief, efficiency is key, and all this in a very simple and well organised way. The entire organisation of your business now runs smoothly and correctly, and what's more... all this also leads to substantial time gains.

Simple and well organised in use: you really do not require extensive computer knowledge!

Stock management: no more surprises, a clear overview is immediately available.

Barcodes: you no longer have to develop and stick on your own labels; we use the existing data offered by the supplier.

Inventory: finally, an enjoyable New Year's Day for you too; you can now take inventory without closing your store.

Orders: follow-up of both customer orders and your own order forms.

Reports: your store no longer holds any secrets for you; our reports (statistics) are crystal clear.

Accountancy: clear overviews, account book, receipt book, inventory, reductions list, ...
From now on, no more worries; this way, all required data can be sent to your accountant (even via e-mail).

Security per user: you decide who gets to see what.

Mailings: finally, you can reach your customers in a very target-oriented way.

Sales: simplicity is key; customer-loyalty card, sales, customer management, exchange, deposits, gift voucher...

Director

Filip SMAERS,
Product & Quality Manager

Company description:

Roam Chemie is a manufacturer/distributor of water treatment chemicals, disinfectants based on the "Huwa-San Technology" and a fertilizer based on silicium named "Silamol".

Huwa-San Technology

1. Our products are disinfectants with bactericidal, fungicidal, sporicidal and virucidal properties;
2. The products are based on hydrogen peroxide and formulated by the unique Huwa-San technology;
3. All products are ecological (fully biodegradable), odourless and colourless;
4. With these products we provide solutions in various application areas like agriculture, cosmetic industry, food and beverage industry, public health sector, swimming pools, ...

Silamol

1. Silamol is a fertilizer based on bio-available silicon;
2. It improves the natural resistance to biotic and a-biotic stress by enhanced resistance to fungal and insect attacks;
3. Silamol improves and optimises the uptake and distribution of minerals resulting in a significant increase of product yield;
4. Silamol is 100% bio-available for plants and is absorbed in a very short time by leaves and roots;
5. It reduces the transpiration and optimises the water management of plants. Toxic elements, such as aluminium, are immobilised by Silamol.

F +32 3 886 25 38
www.purna.be
info@purna.be

Delegate:
Raymond VAN GUCHT,
General Manager

Company description:

Purna Pharmaceuticals is an independent Belgian company specialised in the manufacturing of non-sterile medicines, food supplements and cosmetics, namely of semi-solid preparations such as ointments, creams, pastes and gels of liquid forms such as solutions, emulsions, suspensions, aerosols and of dry powders, under GMP conditions (Good Manufacturing Practice).

We do this as a contract manufacturer as well as for our own registered products and for export. Our strength is our customer-oriented flexibility, without affecting the quality.

Producing pharmaceuticals in a GMP environment also entails a strongly developed quality control and assurance environment (QC-QA) where a well-equipped laboratory, besides a routine in-process control system, is an excellent instrument for maintaining a high quality level.

For all the produced products, within the company there are facilities on hand for drawing up the registration documents for the domestic market and abroad. A separate department for Regulatory Affairs is present, and this can rely on the laboratory to finalise the technical files.

At the same time we can develop products and files thanks to our research and development department.

DE KOBRA NV

Klaarstraat 19
B - 1745 OPWIJK
BELGIUM
T +32 52 36 57 57

We use the newest technology to take in account energy saving, noise reduction and odour control.

At this moment our export goes mainly to the UK.

DIAZ SUNPROTECTION NV

Ruisleedsesteenweg 3
B - 8700 TIELT
BELGIUM
T +32 51 40 93 23
F +32 51 40 93 17
www.diaz.be
info@diaz.be

Delegate:
Tom VEREECKE,
Export Representative

Company description:

Dizz Design is a successful brand of the Belgian company Diaz plc, a well known name in the domain of solar protection and window decoration. Our market oriented approach resulted in continuous expansion, creating an added value for a loyal clientele.

Dizz Design is a separate business unit of Diaz and an ambitious Belgian editor in decorative (curtain) fabrics. We succeed to satisfy the most demanding of tastes by launching stylish and exclusive fabrics with an added value in harmonious combination with an excellent service.

Our strength is the combination between trend setting designs and marketability of our products. We are present in 20 countries now and target medium- to high-end customers. We are distributed together with other European editors such as "Nya Nordiska", "Kobe", " Andrew Martin", " Designers Guild".

Way of doing business: We sell hangers where the fabrics are presented on to our distributor/importer. Those people present the hangers in their hangers and give them to sales people on the road. From these hangers people can start ordering cut length service fabrics, as this is the main business where both companies can profit from. The more hangers into the market, the more chance on sales.

PROMONTA NV

Company description:

The quality of the pharmaceutical products you supply your patients with, depends upon your choice of transportation. Do you make the right choice?

Today, Dirk Raes Logistics (Movianto Group) is one of the leading cold chain forwarders for the pharmaceutical industry in Europe.

Dirk Raes Logistics uses specially equipped actively conditioned vehicles to transport pharmaceutical products under constant, controlled and registered temperature as a high quality alternative for the classic cool boxes.

As part of the Movianto Group, we emphasise that quality is our trade mark.

Our two conditioned, validated and calibrated logistic centres in Drongen and Aalst (Flanders, Belgium) are the nerve centre for the activities.

We offer made-to-measure pharmaceutical Cold Chain solutions to our customers. The services we provide, include dedicated European express transport, Benelux Cold Chain Distribution, storage and picking and packing. For each of these services, we ensure a registered, uninterrupted Cold Chain.

Our list of references is impressive. Among them are: Alcon, Astra Zeneca, Baxter, Bayer Healthcare, CSL Behring, Ferring, GSK, Ipsen, Merial, Novartis, Novo Nordisk, Pfizer, Sanofi Pasteur MSD, Wyeth, ...

Company description:

Dossche Mills are one of the largest wheat flour mills and manufacturers of bakery ingredients in Europe. The company was founded in 1875 and is part of the Dossche Group of Companies, a fully family-owned entity, employing 850 employees and generating a turnover of € 320 million. The Group's guiding principles are prime quality standards and customer orientation.

Dossche Mills, with a turnover of € 160 million, grinds 1,500 tonnes of wheat per day; which corresponds to 1,100 tonnes of flour daily.

The vast product range of Dossche Mills covers flour, heat treated flour, bread mixes, pastry and confectionery mixes, custard mixes and improvers.

The international customer base is predominantly formed by craft bakeries, patisseries, industrial bakeries, biscuit manufacturers and food processors.

Other facts & figures:

- 3 production sites in Belgium: Deinze (head office), Antwerp and Roeselare
- 300 employees
- export worldwide
- BRC certified
- shareholder in United European Flour Mills (UEFM); the largest European exporter of wheat flour.

Denis RENTY,
Export Manager UK & Ireland

Company description:

Fag Creative Foods is a family-owned enterprise, specialised in the manufacturing of mainly patés, galantines, goose-liverpaté, mousses, sausages and other cooked products of meat, game, fish, and also vegetarian.

Ferdinand Ghesquière started the firm in 1975 in the industrial estate of Ostend. Coming from a family of meat processors, his sons and a daughter form the fourth generation that keeps and works out the old and traditional recipes.

Our intention is, and always will be, to produce patés between 125 gr and 10 kilo according to the most strict rules (BRC 5 level A certified) and using high-tech machinery in order to deliver into the export markets (93 %) according customers specifications and also advise customers of new product ranges and marketing opportunities.

Grader

Company description:

het Juweelatelier is a jewellery shop located in Lier, a small picturesque city near Antwerp (Belgium). The shop is run by dedicated craftsmen, having experience for many years with diamonds and jewellery.

We specialise in the design of contemporary jewellery and more specific, in custom-made wedding rings. Our objective is to create a unique and outstanding piece of jewellery, reflecting the style of both customer and designer.

Although we mainly sell our exclusive jewellery in Belgium and The Netherlands, we have customers from all over the world visiting our shop.
